

Anti-BIRC3 Rabbit Polyclonal Antibody

Cat:AC50737

Basic information

Source: Rabbit

Species reactivity: Human

Isotype: IgG

Purification: Affinity purification

MW(kDa):68kDa

Background:

This gene encodes a member of the IAP family of proteins that inhibit apoptosis by binding to tumor necrosis factor receptor-associated factors TRAF1 and TRAF2, probably by interfering with activation of ICE-like proteases. The encoded protein inhibits apoptosis induced by serum deprivation but does not affect apoptosis resulting from exposure to menadione, a potent inducer of free radicals. It contains 3 baculovirus IAP repeats and a ring finger domain. Transcript variants encoding the same isoform have been identified.

Swiss Prot:Q13489

Gene ID:330

Tested applications: WB

Immunogen:Recombinant protein of human BIRC3

Storage: Store at -20°C. Avoid freeze / thaw cycles.
Buffer: PBS with 0.02% sodium azide, 50% glycerol, pH7.3.

Western blot analysis with K001753P diluted at 1:1,000

Immunohistochemistry of paraffin-embedded Cervical cancer(hu) using K000332P at dilution of 1:100 (100x lens).
