

## Anti-FGF21 Polyclonal Antibody

Cat: AC50919

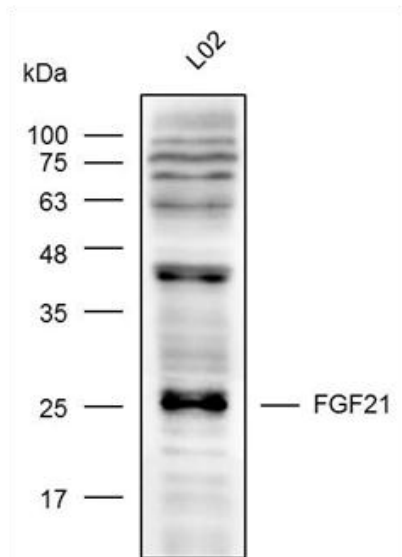

### Summary:

- 【Product name】** : Anti-FGF21 antibody      **【Source】** : Rabbit  
**【Isotype】** : IgG      **【Species reactivity】** : Human, Mouse  
**【Swiss Prot】** : Q9NSA1      **【Gene ID】** : 26291  
**【Calculated】** : MW: 22kDa      **【Observed】** : MW: 25kDa  
**【Purification】** : Affinity purification  
**【Tested applications】** : WB  
**【Recommended dilution】** : WB 1:500-2000.  
**【WB Positive sample】** : L-02  
**【Subcellular location】** : Secreted.  
**【Immunogen】** : Recombinant protein of human FGF21.  
**【Storage】** : Shipped at 4°C. Upon delivery aliquot and store at -20°C

### Background:

This gene encodes a member of the fibroblast growth factor (FGF) family. FGF family members possess broad mitogenic and cell survival activities and are involved in a variety of biological processes. This protein is a secreted endocrine factor that functions as a major metabolic regulator. The encoded protein stimulates the uptake of glucose in adipose tissue.
