

## Product Specifications

### Compound Information

|                                  |            |   |                         |
|----------------------------------|------------|---|-------------------------|
| Product Name: 酸水解酪蛋白             |            |  |                         |
| EN Name: Casein acid hydrolysate |            |   |                         |
| Product No:                      | C25870     | Molecular Fommla:   | $C_{21}H_{41}N_5O_{11}$ |
| CAS:                             | 65072-00-6 | Molecular Weight:   | 539.58                  |

### Quality Control Information

| Test:                 | Norm:                             |
|-----------------------|-----------------------------------|
| Appearance            | Milky white to pale yellow powder |
| Total N               | 8-15%                             |
| Ash                   | 0-5%                              |
| Water By Karl Fischer | 0-3%                              |
| pH                    | 6-6.8                             |
| Chloride              | 0-3%                              |
| Content Of Amino-N    | 5-10%                             |
